

NEW FOR 2008!

Sportsman's BowCondo

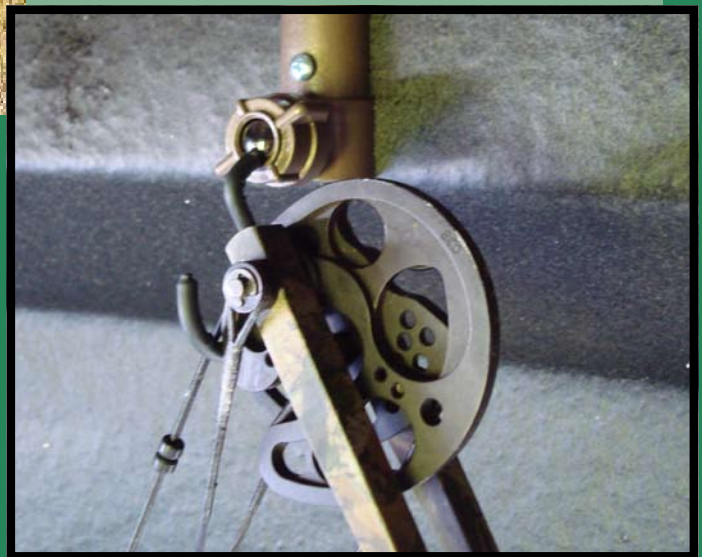

The Pioneer in Solid Blind Technology

In response to **overwhelming** customer demand, we've spent the past 2 years developing an archery blind worthy of the name **Sportsman's Condo**.

Our **Sportsman's Bow Condo** features the same "solid blind technology" as our other best-selling Sportsman's Condos: no rust, no rot construction, fully assembled with floor, sides and room all molded for a stronger, quieter blind.

The 6 foot diameter, 7 foot tall **Bow Condo** allows plenty of room to draw your bow, and the three tinted 29"x18" vertical windows were designed with archers in mind, but work equally well for gun hunters. The windows feature our "Quiet Seal" technology with full weather seal and can be used with our optional "shoot-through" camo mesh window kit for a greater level of concealment.

Other features include: two built-in shelves, a bow/gun holder and a window in the door for an increased range of vision. The door of the **Sportsman's Bow Condo** has been redesigned and is now bigger, wider and stronger. It also has an improved latching system. The included steel base accepts 4x4 posts making it quick and easy to elevate you **Sportsman's Bow Condo**.

Sportsman's Condo Hits Bullseye with Blind Large Enough for Bow Hunting

Southern Outdoor Technologies™, "The Pioneer in Solid Blind Technology," www.sportsmanscondo.com is proud to announce the unveiling of the new "Sportsman's Bow Condo" to their 2008 product line up.

"We are very excited to be introducing our newest Sportsman's Condo model," said Mark Bernegger, Founder of Southern Outdoor Technologies. "The new "Bow Condo" has been two years in development, and was really born by demand from our customers.

"We couldn't be happier with how the new "Bow Condo" turned out," said Lee Blair, VP of Product development. "Not only does it offer the firearms hunter all the utility of the original models, but due to the increased size, the Bow Condo now offers bow hunters the ability to hunt from the protected comfort our solid, no rust, no rot blinds. Whether utilized as a ground blind or elevated with the optional base, this unit allows all types of hunters to enjoy the comfort and advantages of the quietest, most secure blind on the market."

"The new Sportsman's Bow Condo really allows for an increasingly enjoyable hunting experience," said Sonny Jameson, VP Business Development. "Now the bow hunter can experience the same benefits of the Sportsman's Condo that successful gun hunters have enjoyed for years. There is plenty of room to move, aim, & shoot, store necessary items, and keep heavy weather out...all in a blind that's "field ready" when it arrives at your door." "That's the kind of value and simplicity hunters deserve and appreciate," added Jameson.
